**Pinnaclife, Inc. is introducing the new supplement, Detox Support with Olivamine<sup>10</sup>MAX**

Coralville, IA, December 4, 2013--Pinnaclife, Inc., a company owned by McCord Research, Inc. is introducing a new supplement, called Detox Support with Olivamine<sup>10</sup>MAX™. This supplement contains the highest amount of Olivamine, a synergistic blend of antioxidants, vitamins, and amino acids, which promote liver detoxification.

Olivamine<sup>10</sup>MAX™ is based on the same science as Olivamine<sup>10</sup>, but is more potent. It includes the same powerful detoxification ingredients including, N-acetylcysteine, which restores glutathione, is anti-inflammatory, and has been scientifically shown to be protective against a range of toxic agents.

Olivamine<sup>10</sup>MAX™ comprises olive extracts that contain the important antioxidants hydroxytyrosol and oleuropein, and is composed of other critical ingredients that increase glutathione levels and support mitochondrial function including L-Taurine. Vitamins B<sub>3</sub> and B<sub>6</sub> are also important ingredients for eliminating oxidative stress and promoting detoxification.

Dr. Darlene McCord, CEO, CSO, and founder of Pinnaclife, Inc. and McCord Research, Inc. is the creator of Olivamine. She is a leading nutritional biochemist who has been creating successful health products for over thirty years. In addition to Detox Support, she has created the specialty supplements Sleep Support, Mood Support, Energy Support, Brain Health and Joint Health following her original five supplements including, Olivamine<sup>10</sup>, MultiVitamin, Omega-3, D<sub>3</sub>+Magnesium and Prebiotic Fiber. For more information, or to purchase the supplements visit: [www.Pinnaclife.com](http://www.Pinnaclife.com)
